*(Title)* **GUIDELINES FOR 61st TUNA CONFERENCE ABSTRACTS**

*(Author(s))* Bill Fish
*(Affiliation(s))* Pelagic Community

*(Senior author's address)* 53 Longline Drive
Statistical Area 77, Pacific Ocean

This page is an example of the abstract format. It provides guidelines to assist in the preparation of your abstract and to facilitate compilation of the 61st Tuna Conference proceedings. The proceedings will be available at the start of the Conference.

**The deadline for inclusion of your abstract in the proceedings is March 15, 2010.**

Abstracts must be submitted for both papers and poster presentations and should be clear in stating objectives and summarizing results and conclusions. If you are describing ongoing research, you should summarize results obtained to date. The title, authors, agency or school affiliation, and senior author's mailing address should be included. Do not include literature citations.

Each abstract will be printed on one American quarto (216 mm x 279 mm) page with 25 mm (1 in) margins, with text in 11 point Times New Roman, and using full-block justification. Abstracts exceeding the one-page format will be edited (perhaps truncated) to fit.

If possible, abstracts should be submitted by computer file. The preferred format is MS Word; plain ASCII text files are also acceptable. You are encouraged to send MS Word and ASCII files via e-mail to info@tunaconference.org. Otherwise, CDs are acceptable.

If you cannot send a computer file, you may submit a camera-ready hard copy, preferably on American quarto paper. If you must use A4 paper, try to adjust the margins to 25 mm on the top and left side, 20 mm on the right side, and 42 mm on the bottom. If you need further clarification, contact:
